

# Epic Charging

You deserve an Epic Charging experience

# We All Deserve an Epic Electric Vehicle Charging Experience

## Why make your customers settle for less?

You deserve an Epic Charging experience

# Industry-leading EV Charging Software

## Payments and Access

No app is required for payment

## High Reliability

Maintain 99% uptime with our 24/7 health monitoring software

## Epic Charging Experience

Exceptional customer service, customer-centric mindset, and intuitive software

# Easily Manage Your EV Charger Operations

## Compatible with All Open Protocol Chargers

Our software is compatible with any OCPP compliant L2 and DC charging hardware

## User-Friendly Interface

Our UI/UX is designed to be intuitive and easy to navigate

## Load Management

Install more chargers with our advanced load management software

# Easier for Drivers and **More Valuable** for You

Earn higher transaction revenue with our app-free promise

Keep chargers private or make them public when it fits your needs

Sell clean electricity and monetize carbon credits with our epic brokerage

# Operate Your **Electric Fleet** Like a Pro

Connect over 200 vehicle models to monitor battery and plan routes

Let your drivers charge at all major public chargers with one convenient app

Reimburse your drivers for charging at home and in the public

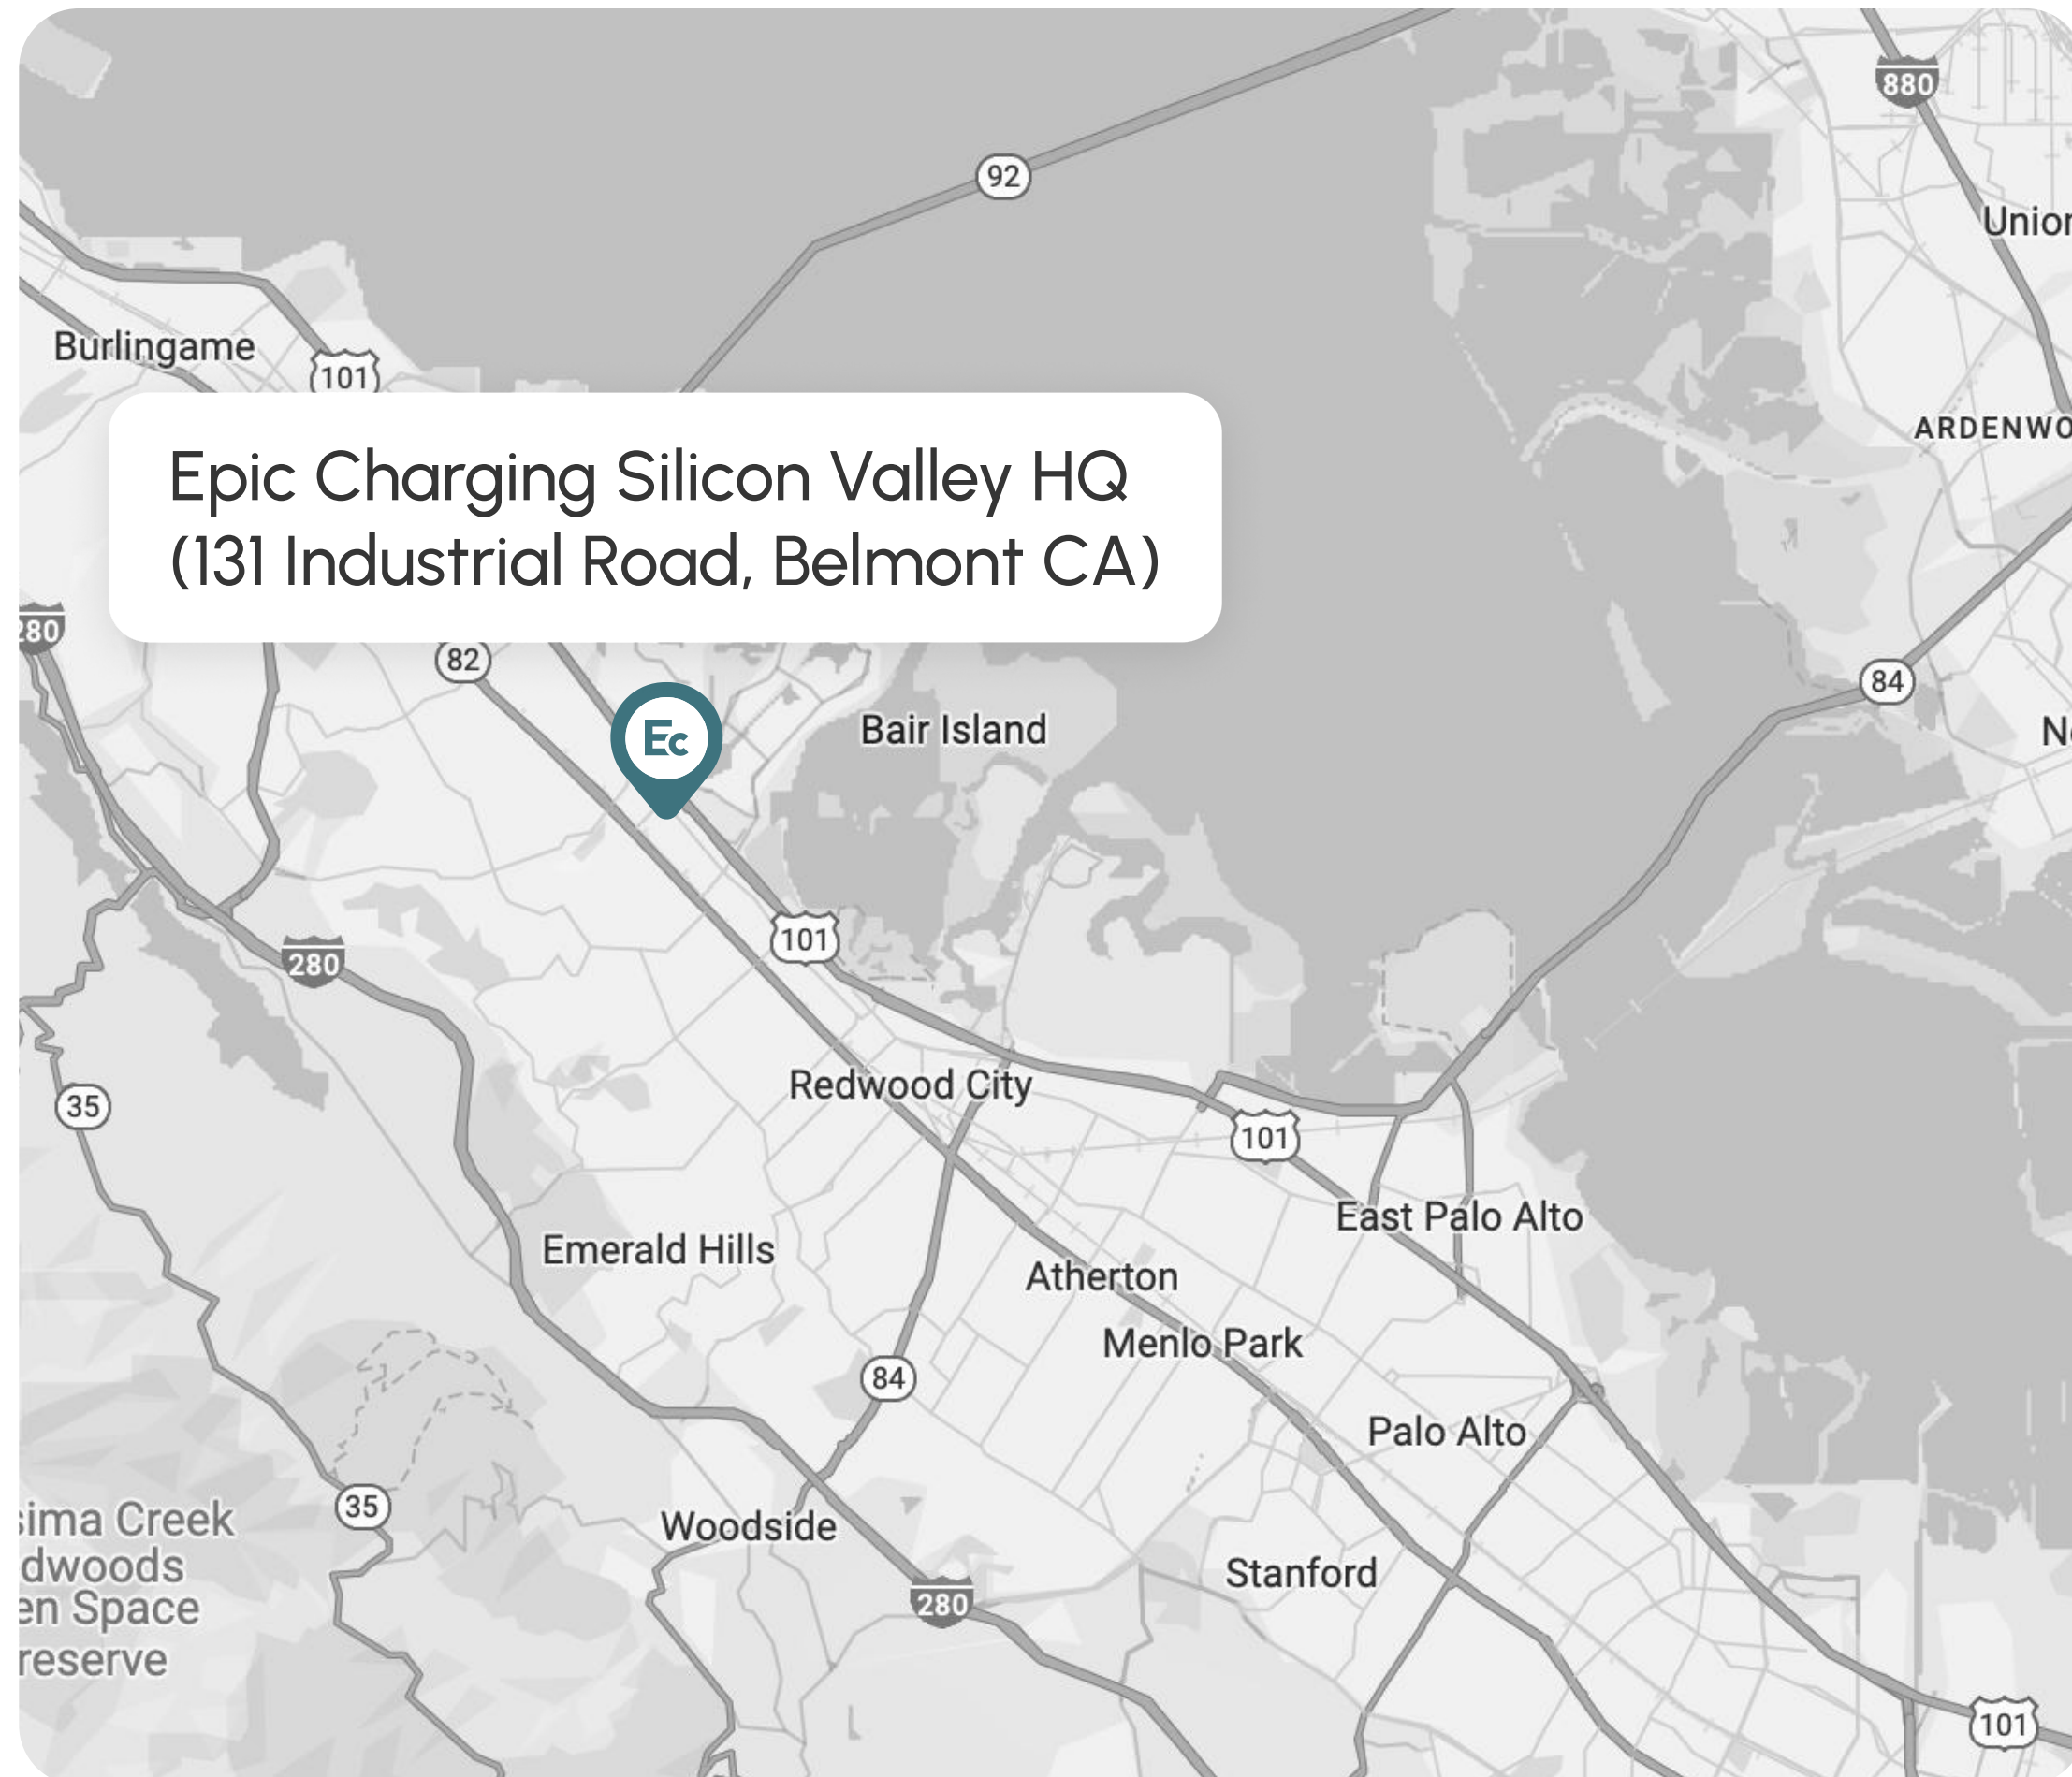

# About Epic Charging

# Epic Charging Overview

Industry leading software platform: chargers, payment terminals, telematics

50,000+ chargers under contract (US, Canada, and Mexico)

Prioritize data security and reliability (AWS servers, SOC 2.0 and OpenADR certified)

Epic customer experience with intuitive and user-friendly software interface

You deserve an Epic Charging experience

# Charging solution for every type of business

Public charging

Electric fleets

Multi-family buildings

Workplace charging

# You Deserve an Epic Charging Experience

Industry-leading software

Feature-rich AND user friendly

Most value and affordability

Epic customer service

"We created Epic Charging to solve major technical and customer service gaps in the EV charging industry.

Our customers are delighted by the speed of our development, their ability to manage a less complicated EV charging program, and our commitment to delivering epic customer service."

Michael Bakunin, PhD  
CEO, Co-founder

# Trusted by Industry Leaders

THE MOBILITY HOUSE

The team at Epic Charging is very responsive and made my job easier by asking the right questions upfront and working hard to ensure my client was happy.

Business Development Lead,  
The Mobility House

BALTIMORE  
AIRCOIL COMPANY

Epic Charging delivered a well priced EV charging solution. Their software is also very intuitive, which has made it easy to manage my EV charging program.

VP Business Transformation,  
Baltimore Aircoil

CITY OF  
**PALO ALTO**

On a scale of one to ten, I give the Epic Charging solution a perfect 10. The EV charging software network came online right away. It's a really easy user interface.

EV Manager,  
City of Palo Alto

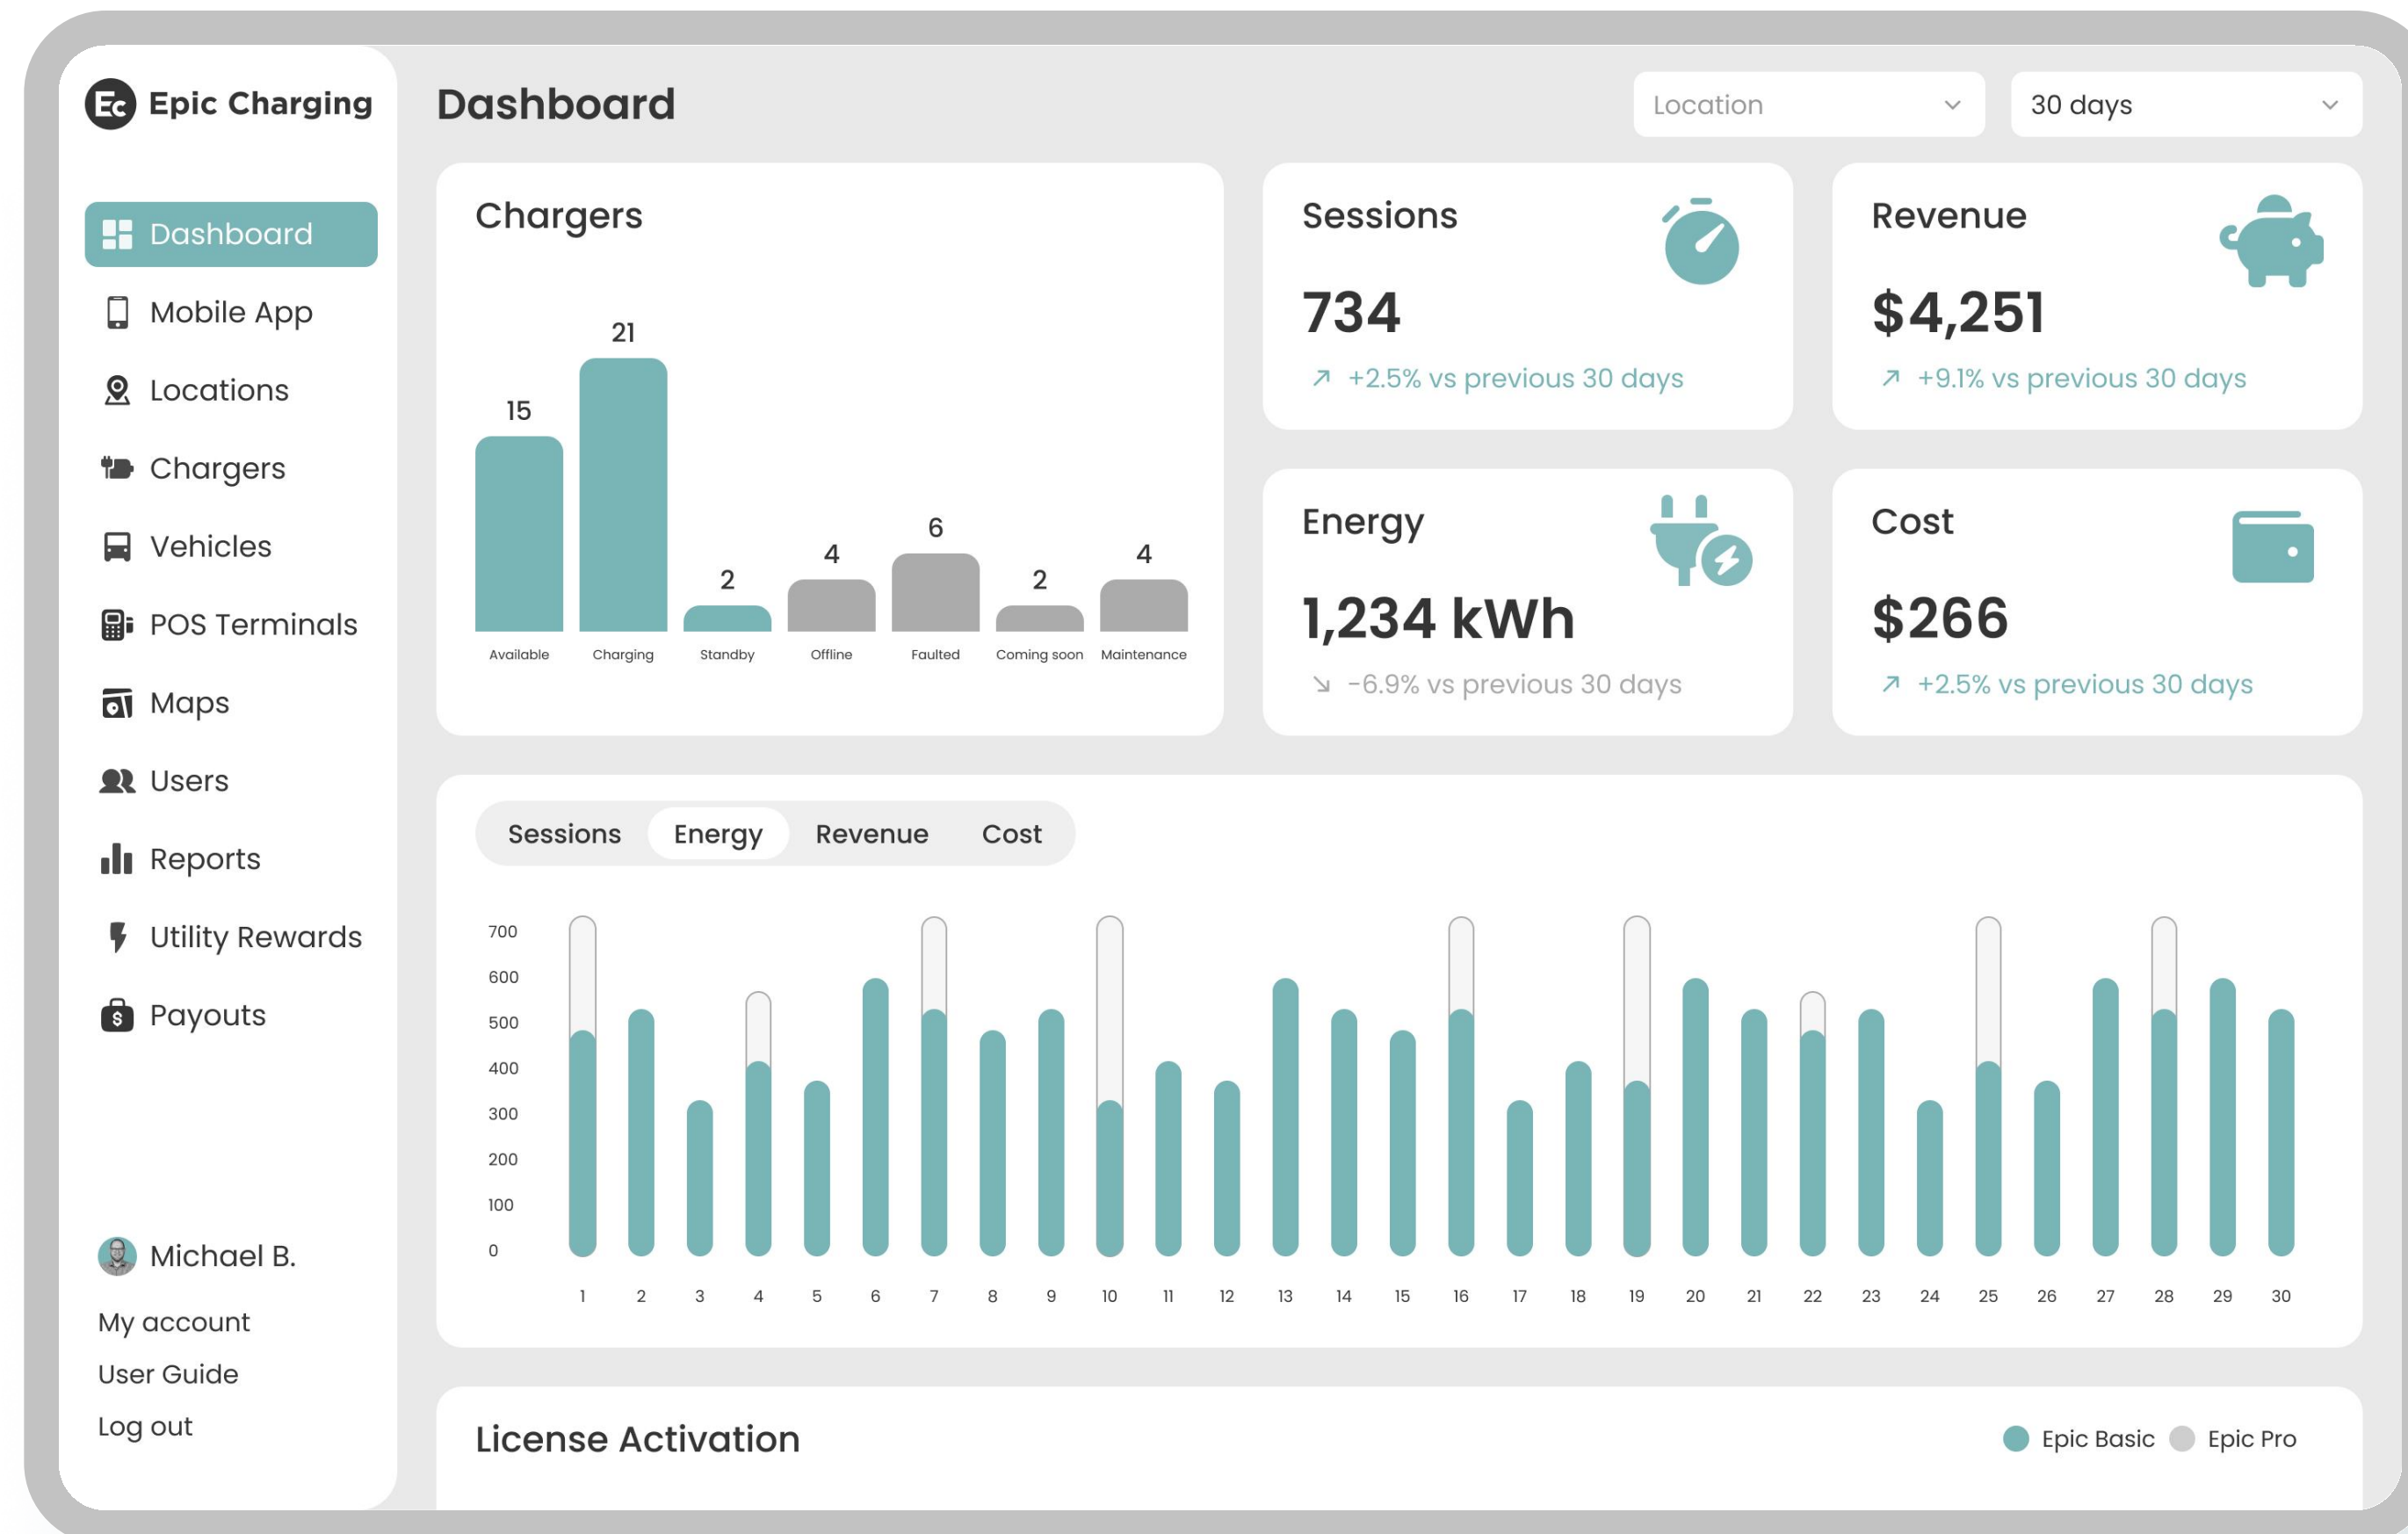

# Epic Charging Software Features

# Dashboard

✓ Quickly understand the status of all chargers

✓ Key metrics visibility: revenue, cost of electricity, number of sessions, energy consumption

✓ Identify chargers requiring attention

# Chargers

- ✓ View charger availability, connector status, current charging session details
- ✓ Set charging schedules to minimize electricity time of use costs
- ✓ Start and stop charging session, reset charging station: soft and hard reset

# Pricing Engine

- ✓ Advanced pricing functionality including activation fee, idle fee, grace period, pre-authorized amount
- ✓ Pricing by hour and kWh, based on battery SOC, time intervals, tiered pricing, and separate rates for AC/DC chargers
- ✓ Optional PIN code protected EV charging for employees and guests

The screenshot displays the 'Epic Charging' interface, specifically the 'Pricing' tab for 'Epic Lab'. The interface is divided into a sidebar and a main content area. The sidebar on the left contains navigation links: Dashboard, Mobile App, Locations (highlighted), Chargers, Vehicles, POS Terminals, Maps, Users, Reports, Utility Rewards, and Payouts. Below these is a user profile for 'Michael B.' with links for 'My account', 'User Guide', and 'Log out'. The main content area features a top navigation bar with tabs: Details, Chargers, RFID, Pricing (selected), Discounts, and Load control. A currency selector shows 'USD'. Below the tabs, there are input fields for 'Activation fee, \$' (0.25), 'Idle fee, \$/h' (1.00), 'Grace period, min' (15), 'Pre-authorized, \$' (15.00), and 'Charger PIN-code' (1234). A toggle for 'Enable Separate AC/DC Charger Pricing' is currently off. The 'By energy' section is active, showing a timeline from 12:00 am to 12:00 am with pricing rules: \$0.15/kWh from 12:00 am to 4:00 pm, \$0.25/kWh from 4:00 pm to 6:00 pm, and \$0.20/kWh from 6:00 pm to 12:00 am. Each time interval has a detailed configuration box with 'Price, \$/kWh' (0.15, 0.25, 0.20), 'Quantity' (1000), 'Units' (kWh), and a 'PIN-code' toggle (ON/OFF). The 'By time' section is inactive, showing a timeline with a single rate of \$0.25/h.

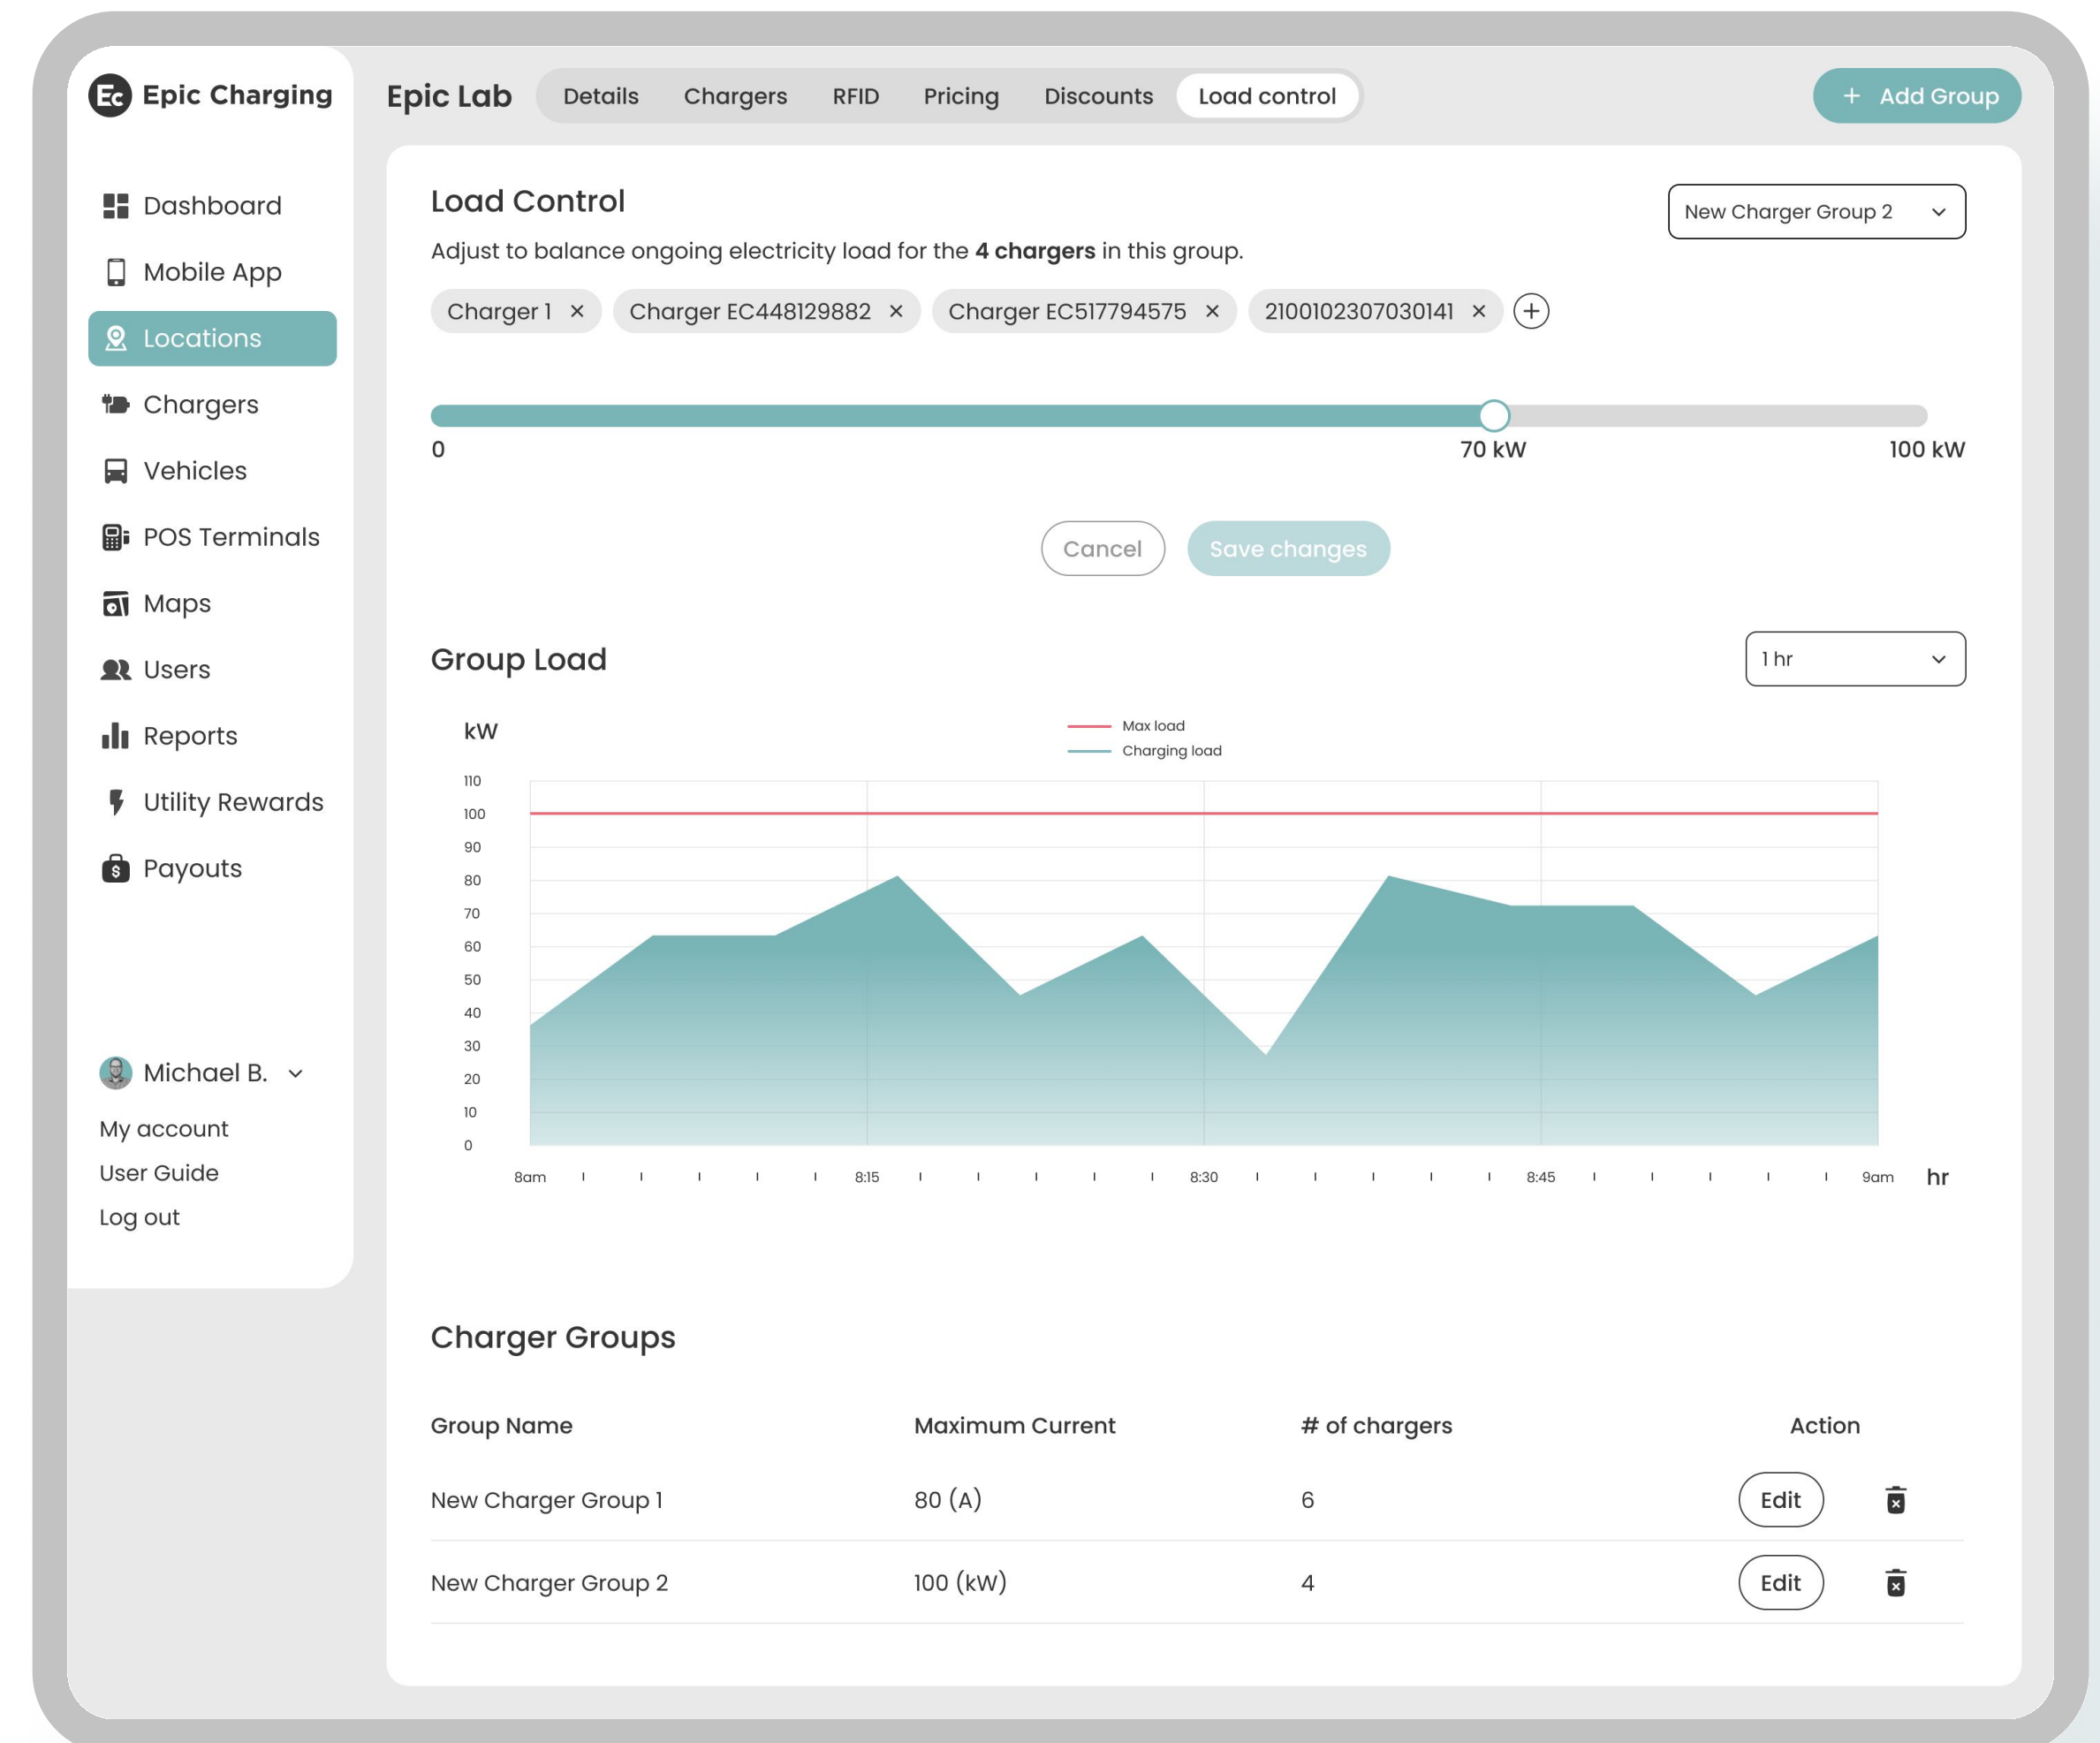

# Control your costs with Epic Power Management

✓ Dynamic load management to control multiple EV chargers and building loads

✓ Automatically reduce peak demand charges by setting max power limit for charger groups

✓ Dynamically distribute maximum available power to charge faster when fewer cars are connected

# Advanced Reporting

The screenshot displays the 'Epic Charging' Reports section. The interface is divided into a left sidebar and a main content area. The sidebar contains navigation links: Dashboard, Mobile App, Locations, Chargers, Vehicles, POS Terminals, Maps, Users, Reports (highlighted), Utility Rewards, and Payouts. Below the sidebar, the user's name 'Michael B.' is shown with a dropdown arrow, and links for 'My account', 'User Guide', and 'Log out' are provided. The main content area is titled 'Reports' and has two tabs: 'Generic' and 'Customized'. Three report cards are visible:

- Low Carbon Fuel Standard Report**: Includes filters for 'Select location' (All locations), 'Select charger' (All chargers), and 'Select period' (Dec 22, 2023 - Jan 21, 2024). A 'Generate Report' button is on the right.
- Uptime Report**: Includes filters for 'Select location' (All locations), 'Select charger' (All chargers), and 'Select period' (Jan 01, 2023 - Dec 31, 2023). A 'Generate Report' button is on the right.
- 15-minute Interval Report**: Includes filters for 'Select location' (All locations), 'Select charger' (All chargers), and 'Select period' (May 15, 2017 - Jun 15, 2017). A 'Generate Report' button is on the right.

✓ Create custom reports by using filters

✓ Pre-configured reports for utility and government programs: LCFS (Low Carbon Fuel Standard), Charger Uptime Status Report (NEVI Standard), 15-minute Utility Interval Report

✓ Ability to export customizable reports in CSV and PDF formats
